For instance, if aftermarket speed brakes have been installed, a pre-takeoff operational check is not on the Cessna checklist in the owner's manual or POH. Every engine has a "sweet spot" oil level. After some experimentation, I found that the sweet spot for oil was nine quarts in the Continental O-470-R engine in my 182.

Cessna 150H. For a variety of reasons, it's time to sell my excellent 1967 Cessna 150H. This is a great low total time plane with a young engine. Out of the "infant mortality" zone, the Continental O-200A should easily give you many years of trouble-free flying. All logs since new. It has not been a trainer and does not have any damage history.
